

Ada Okoro

Frontend / Full-Stack Developer

ada.applicant@example.com | 0801 000 0001 | linkedin.com/in/ada-okoro | github.com/ada-okoro

SUMMARY

Frontend-leaning full-stack developer with 3 years of experience building responsive web applications in React and Node.js. Comfortable owning a feature from UI through to the MongoDB layer it reads from.

SKILLS

JavaScript, React, Redux, Node.js, Express, MongoDB, REST APIs, Git, Jest

EXPERIENCE

Frontend Developer — PixelBridge Ltd, Lagos

2023 — Present

- Rebuilt the customer dashboard in React, cutting initial load time by roughly a third.
- Built and maintained a component library shared across three internal products.
- Paired with backend engineers to design REST endpoints consumed by the dashboard.

Junior Web Developer — Freelance

2022 — 2023

- Delivered small business websites and landing pages for 6+ local clients.
- Integrated MongoDB-backed contact forms and basic CMS features.

EDUCATION

B.Sc. Computer Science — University of Lagos

2018 — 2022
